

Camera Club – a new course at SeniorNet

DO YOU want to learn more about taking photos using your own capture device, whether it's a camera or phone? Meeting for 2 hours once a month, you will learn how to change device settings, how to use the equipment, how to edit the images, how to print them and display your photographic works of art.

Here is a run down of topics for this course:

- *How to use the many different kinds of capture device*
- *Setting up the device for indoors, outdoors, low light, bright light images, etc.*
- *Information on taking a GREAT photo!*
- *How to edit the images using free and other apps*
- *How to make images good enough to frame and display*
- *And generally anything and everything about the device and taking photos, editing and printing*
- *Notes will be given where appropriate.*
